ABOUT US

Hydris - part of the Pollet Water Group - designs, builds and supplies various water treatment systems/solutions for the industry. We commit to offer the most reliable and sustainable tailor made solution to guarantee the continuity of the customer's processes.

PWG serves the needs of water treatment companies through its distribution network of 26 PWG companies, which offer both solutions and components for domestic, commercial, hospitality and industrial process water applications.

PWG is part of the Pollet Group, a Belgian owned family company and active in three segments: water treatment, pool business and health care. Pollet Pool Group operates in the swimming pool construction market with 8 distribution companies and 2 manufacturers. Pollet Medical Group, consists of 5 specialised medical oriented companies. Together, the group has about 1.500 employees.

YOUR RESPONSIBILITIES

As an Application Engineer, you follow-up the chemical water treatment applications of our customers -both industry and large buildings- located in East, West Flanders and Antwerp.

- You carry out water sampling and on-site analysis on steam boilers, cooling towers and closed circuits and safeguard the storage, dosing and measurement equipment.
- You monitor the stock management of our water treatment products.
- You draw up service reports; interpret results and formulate improvement proposals.
- Building strong technical relationships with our customers is key. Your expertise allows you to qualify our customers' needs in order to solve issues and optimize the installations.
- You take the lead in new treatment start-ups and controller's set-up.
- You are part of a dedicated team of engineers and reports to the Service Manager.

Application engineer

PROFILE

- You have a degree in Chemical Engineering with 2-5 years field experience.
- Knowledge in chemical analysis and results interpretation is essential. Experience with chemical water treatment installations and technologies is a plus.
- You have the ability to work at high levels of technical accuracy.
- You are entrepreneurial, a fast learner, results driven, proactive and stress-resistant. You have a customer oriented and service mindset!
- You are a team player that is able to function in an independent and multitasking environment with a wide-ranging set of tasks.
- You have strong interpersonal and communication skills - fluent in Dutch.
- Proficient in Microsoft Office applications.
- Preferably, you live in the region.

WHAT WE OFFER

A challenging position with ample space for autonomy and personal development

A fascinating career in a rapidly evolving and future secure water treatment industry within a financially stable company. You will become part of the Pollet business culture: a culture of entrepreneurship, collaboration, continuous improvement and a can-do mentality

A progressive and warm environment in a strong family owned group. The Pollet Group is a top player in its industry.

An attractive and competitive salary package with corresponding fringe benefits.
